The recent plotting and mapping of Mt. Vernon and its streets from an old survey, places many of our citizens in the position of not knowing "where they are at." Streets running North and South are called East, Middle and West streets. People who have labored under the impression that they lived on Main street find themselves on Centre. Water street is marked from Spout spring to depot Alphabet Davis and Mit Miller retired one night in their homes on Brooks street and awoke next morning on High street. The SIGNAL office was on corner of Main and Church streets but this map places us at corner of Centre and Middle streets.
